THE NEXT **WAVE** IN DECKING

Georgia's Port Royale Marina floated the idea of using MoistureShield's high-performance composite decking for its multi-million dollar transformation. The full-service marina chose water-resistant MoistureShield® to add durability to accommodate more than 7 million visitors per year. The moisture resistance made it a perfect choice to battle the high moisture exposure from Georgia's humid climate and contact with the lake water. They even used it in the "Water Play Place," which is a special deck with water fountains for children to splash in.

So if you're looking for a more beautiful, durable decking option – don't miss the boat. Choose MoistureShield® Composite Decking.

ACROSS THE BOARD

Here's even more that MoistureShield® has to offer:

- **MoistureShield® Vantage Collection®** – our high-performance, easy-to-install, reversible boards
- **MoistureShield® Pro** – our new cap stock line featuring an extra layer of protection and beauty
- **MoistureShield® Deck Clips** – concealed fasteners allows for an unblemished deck surface
- **MoistureShield® Pro Aluminum Railing** - adds a contemporary edge to any deck design
- **MoistureShield® Deck Lights** - LED deck lights brighten any deck design
