

MoistureShield™ COMPOSITE DECKING

FROM THE BACKYARD TO THE BOARDWALK

MoistureShield® has the right products for every outdoor living project. In addition to 1x6 decking profiles, MoistureShield is available in 2x4, 2x6 and 2x8 boards that are made to stand up in almost every commercial installation including docks, marinas, parks and multi-family housing projects.

For residential applications, MoistureShield boards are protected by a Lifetime Warranty, even when installed with ground or water contact. We also award Commercial Warranties specific to each project based on the conditions and location of the job site.

MoistureShield™ COMPOSITE DECKING

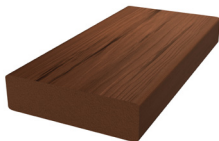

THE MOISTURESHIELD DIFFERENCE

With MoistureShield's Vantage Collection®, you can enjoy the look and workability of wood, but with more water resistance, more durability and less maintenance. Offered in 12, 16 and 20 foot lengths, our slip resistant, reversible boards feature a natural wood-grain texture on both sides, allowing use of either side for easier installation. Vantage boards are available in 1x6, 2x4, 2x6 and 2x8 profiles, perfect for docks, marinas and other commercial applications.

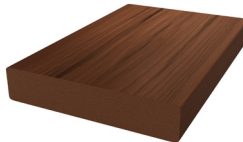

2x4

2x6

2x8*

AVAILABLE IN 8 NATURAL WOOD TONES

*2x8 is stocked in Cape Cod Gray only. Other colors available through special order.
