

WORKING AROUND TREES & THE CUSTOMER'S NEEDS

When crafting artistic deck designs, Dave Hetrick with Exterior Concepts in Tampa takes into account two important considerations: first, the customer's goals and needs, and second, the style of the home and setting.

To meet these needs, he opted for Desert Sand and TigerWood composite decking from the MoistureShield® Vantage Collection®. MoistureShield's workability made it easy to accommodate unique shapes like the oak leaf design, as well as build around existing landscape features and drops in elevation. Furthermore, MoistureShield's unique protection to the core made it possible for the stairs to be installed on the ground without voiding the warranty. A small outdoor kitchen was constructed on the mid-level deck, along with a clean simple railing – both using the same MoistureShield® Composite Decking.

So if you're looking for beautiful, durable decking, turn over a new leaf. Try MoistureShield® Composite Decking.

ACROSS THE BOARD

Here's even more that MoistureShield® has to offer:

- **MoistureShield® Vantage Collection®** – our high-performance, easy-to-install, reversible boards
- **MoistureShield® Pro** – our new cap stock line featuring an extra layer of protection and beauty
- **MoistureShield® Deck Clips** – concealed fasteners allow for an unblemished deck surface
- **MoistureShield® Pro Aluminum Railing** - adds a contemporary edge to any deck design
- **MoistureShield® Deck Lights** - LED deck lights brighten any deck design
