Meet the Next Level in Outdoor Living

Our offering provides beautiful wood composite boards for every home - from the party host to the growing family. Create bold and inspired outdoor living spaces that stand up to the effects of weather and wear with our diverse collection of products.

Excel Everyday. Product innovations that improve your everyday life, offering enduring beauty that reduces the need for routine maintenance.

Defy Ordinary. Built to outlast the elements, our wood composite deck boards can be installed on the ground, in the ground or underwater.

Inspire Life. Create inspired outdoor living spaces, from the Social Spot to the Play Area, with gorgeous finishes and unmatched performance.

We're the only decking product with zero structural field failures for more than 30 years. Visit our website to learn more about why that matters and how we stack up against the competition. MoistureShield.com/Why-MoistureShield
MoistureShield offers the only wood composite boards in the industry that can be installed on the ground, in the ground or underwater without any structural performance issues. At the foundation of every board is our proprietary Solid Core — an impermeable barrier that fights damage from moisture, rot, insects and other harmful elements. Our core maintains its integrity even after ripping and cutting, mitigating warranty issues and long-term damage.

Choose Solid Core and create outdoor spaces that stand up to the effects of weather and wear — day in and day out.

Sustainability Matters

We are committed to the ways our products contribute to a greener tomorrow. We care about every material that goes into our boards. That’s why our environmentally friendly products are made from 95% recycled content and can help earn credit in LEED® green building rating programs.

With every composite board that is manufactured using our sustainable methods, we reduce our consumption of limited natural resources, curb emissions of greenhouse gases and contribute to building a more sustainable world for future generations.

Building with MoistureShield composite decking is equivalent to:

- **Diverting 100M lbs of waste from landfills each year**
- **Saving 110 Gallons of gas per deck**
- **Reducing 1,500 lbs of CO₂ emissions per deck**
- **Reducing 45,000 Cars worth of greenhouse gas emissions annually**

100+ million pounds of waste = 7.5 football fields 10 feet deep

Wood fibers are individually encapsulated in plastic

Solid Core

Proprietary Core for Unmatched Durability

No Warping or Rotting

Zero Structural Field Failures in 30+ Years
Excel Through Innovation

Our technology sets MoistureShield decking above the rest. It started with the Solid Core Difference, and today we continue to design our boards to defy the elements and inspire better living for years to come. That’s why we’ve introduced industry-leading innovations like our CoolDeck® Technology, keeping our boards cooler in hot environments, developing boards that are more authentic and beautiful and creating the strongest composite cap on the market. We’ve kept our focus on innovation for more than 30 years.

Comfort.

Finally, composite decking that stays comfortable all season long, when every degree counts. On a hot summer day, a deck can reach temperatures of more than 160ºF. That’s why we designed the only composite wood decking that absorbs up to 35% less heat* than standard capped composite decking, staying cooler in extreme heat.

For the most discerning tastes, our Infuse decking, made with our proprietary Co-X manufacturing process, has all the authentic beauty of real wood without the maintenance. With a true wood grain finish and self-healing cap, Infuse composite decking weathers into an attractive patina that won’t fade over time.

Durability.

You choose composite decking to avoid maintenance like painting and staining, so why settle for products that scratch or chip on impact? Our DiamondDefense Coating creates the strongest capped wood composite board on the market to protect your deck against everyday damage to stay looking like new for longer.

Beauty.

For the most discerning tastes, our Infuse decking, made with our proprietary Co-X manufacturing process, has all the authentic beauty of real wood without the maintenance. With a true wood grain finish and self-healing cap, Infuse composite decking weathers into an attractive patina that won’t fade over time.

* Compared to standard capped composites. CoolDeck Technology is available in select colors in the Vision and Infuse lines.
Excel Everyday

Our Products

Our offering provides beautiful options for every project. Create bold and inspired outdoor living spaces that stand up to the effects of weather and wear. All of our products are protected with The Solid Core Difference for unbeatable performance in virtually any environment — from above the ground to underwater — so you can rest assured knowing your investment will last a lifetime.

Deck Style Meets Lifestyle

The quick product selection guide on this page will help you understand our products at a glance to solve for your needs. For example, families in hot climates and with young children will want to choose products with our CoolDeck Technology. If you have a rustic, wood-heavy interior design or you live in a forested environment, our Infuse decking will pair beautifully. Heavily-trafficked decks should be made with our Vision decking.

Consider the following questions before choosing the right decking:

- Do you have little children or pets? Choose Vision or Vantage for high slip resistance.
- Does your region experience many hot summer days? Choose Vision or Infuse with CoolDeck.
- What kind of style do you have in your home? For a rustic look and feel, choose Infuse. For modern, refined colors, choose Vision.
- How often do you entertain large groups? For heavy foot traffic, choose Vision.
- Are you designing a home dock or pier? For the highest durability: Vision Marine Grade 2x. For an authentic wood look: Vantage Marine Grade 2x.

**Vision** with CoolDeck
Extremely durable decking built for bare feet, pet claws, summer heat and sports cleats

**Elevate**
Affordable and high-performing composite decking with a strong, protective barrier

**Infuse** with CoolDeck
Authentic premium wood look with colors built to keep even the hottest weather at bay

**Vision** Marine Grade 2x with CoolDeck
Marine grade boards with CoolDeck, premium durability and our highest slip resistance

**Vantage**
Specialty decking imitates real wood but resists damage from water and harmful elements

**Elevate**
Marine decking that retains the look of real wood with our water-resistant Solid Core
It’s time to step up to the future of composite decking. Our strongest capped wood composite board is protected with our exclusive DiamondDefense Coating to exude distinctive style while resisting scratches, stains and damage on impact. Choose from beautiful color options and textures that reflect the look of real hardwood while ensuring unmatched performance features designed to last a lifetime.

- Made with 95% recycled material
- Transferable 50-year structural warranty
- 50-year fade and stain warranty

*Compared to standard capped composites.
For color availability in your region, please contact your MoistureShield representative.

**For actual board dimensions, see chart in back of brochure.
Infuse
Natural. Rustic. Authentic.

Get the look of real wood grain without the maintenance. Our exclusive wood-infused cap creates a beautiful, resilient, color-enriched board with all the protection and performance benefits of our Solid Core. Create stunning spaces without the upkeep that can be enjoyed for a lifetime.

• Made with 95% recycled material
• Transferable 50-year structural warranty
• 25-year fade and stain warranty

**Available colors**
- Northern Hickory
- Southern Barnwood
- Rosewood
- Harbor Gray
- Rustic Timber

*Compared to standard capped composites.
For color availability in your region, please contact your MoistureShield representative.

Elevate

Get advanced protection and beauty without breaking your budget. Our introductory capped wood composite board is shielded with a strong protective barrier to help prevent damage from impact, corrosion and weathering in virtually any environment. Protection paired with straightforward color options allows you to create a stylish, durable outdoor environment simply and affordably. Solid Core runs through the entire board for superior strength and moisture resistance.

- Made with 95% recycled material
- 50-Year Structural Warranty
- 30-Year Fade and Stain Warranty

For color availability in your region, please contact your MoistureShield representative.

Vantage

Decking gets an upgrade with a wood composite board that works better than pressure treated lumber. When it comes to creating custom artisan decks, there’s no material that cuts, rips or bends better while still maintaining its integrity. That’s because our Solid Core runs through the entire board to ensure protection without a cap. As a result, there’s no need for painting, staining and yearly repairs with this beautiful decking option that’s resistant to moisture, rot and warping.

And as our most realistic composite wood decking, the high wood fiber content and uncapped construction of Vantage decking means it will weather and lighten in color just like authentic wood. See the weathered swatches on the next page to ensure you’ll love the end result.

• Made with 95% recycled material
• Matte finish
• Transferable 50-year structural warranty

† Compared to pressure treated lumber.

Defy Ordinary

Accessories

Just like our decking products, all MoistureShield accessories (from our composite railing systems to our deck lights) are built to be beautiful and tough, with uncompromising attention to detail. Complement your outdoor living space with products to match any style.

Composite Deck Railing

pg. 28

Aluminum Deck Railing

pg. 29

Deck Lights

pg. 30

Hidden Fasteners

pg. 31
Complete your outdoor vision with the perfect accessory - railing. Our exclusive composite deck railing systems and accessories are designed to naturally complement all of our decking styles. It’s the perfect finishing touch for your extended living space.

Our composite deck railing systems and accessories include:

- 4’ x 4’ Post
- Post Collar
- Post Cap
- Baluster Kit
- Magnum Railing Kit

All composite railing systems and accessory pieces are sold separately.

Available colors:

- New
- After 6 months
- After 6 months
- After 6 months
- After 6 months
- After 6 months
- After 6 months
- After 6 months

Composite deck railings will naturally lighten to their permanent color within the first six months. Reference these swatches to ensure you’ll love the end result.

Aluminum Deck Railing

Our aluminum railing system adds a contemporary edge to any deck design. MoistureShield Pro Aluminum Railing, available in textured black or white, features sophisticated, modern lines that complement every outdoor setting.

Installation is easy, with each section consisting of three kits:

1. Rail Kit
   - Level rail - 8’
   - Fixed stair rail - 8’
   Accommodates 32 to 36 degrees and includes rails, balusters and brackets
   - Adjustable stair rail - 8’
   Baluster mount toggles and pivoting brackets accommodate 0 to 38 degrees
   These sections include top and bottom rails, preinstalled balusters connectors, support block, and mounting hardware.

2. Baluster Kit
   - 3/4” round or square balusters
   - Available in 36” or 42” installed rail height
   - Packaged in exact counts for each rail length
   - Available in angled cut for fixed stair rail kit

3. Post Kit
   - 3” x 3” post, welded mounting base, cap and collar
   - Available in 38” and 44” heights

ADA Rail & Accessories

- 8” rail, D-loop, bracket, wall return, transition elbow, flat end plug and rail connector
Deck Lights

Create a completely custom outdoor living space with the right lighting. We offer the perfect selection of deck lighting options to add the right amount of ambiance, elegance and safety to your outdoor environment. All of our LED deck lights are protected by a 5-year warranty when installed with MoistureShield light accessories.

Rail Strips
Add a subtle glow to set apart your outdoor living space. Strips can be cut every 2” for custom rail widths.

Post Lights
Low profile and flat top to complement the design of your deck. Real glass coverings help ensure your lights will continue shining clearly for years.

Post Cap Lights
Fits 3” post
Low profile, flat top

Stair Lights
Gentle light to help keep the party going well after dark. Real glass ensures your lights will continue shining clearly for years.

Bullet Lights
Stylishly accent the transitions and details of your deck. Fits flush against your deck boards.

Order Today at MoistureShield.com

Hidden Fasteners
For Wood Composite Decking

Get the most seamless installation possible with our exclusive hidden fasteners. Designed specifically for our wood composite boards, these fasteners provide superior holding power that fits securely into grooved profiles. Hidden fasteners can even add to the life of your deck by elevating the boards off the joists to reduce structural rot and mold. They’re even backed by a limited lifetime warranty against any loose deck boards.

Benefits of our hidden decking fasteners include:
• Easy to install with pneumatic fasteners or screws
• Concealed fasteners create an unblemished deck surface
• Allows joists to completely dry out – reducing structural rot or mold
• Powder coated high strength steel or stainless steel

Fastener Options that Work for You:

Complete System: Covers 50 Square Feet of Decking
• Includes 90 clips, 5 starter clips, 5 finish clips, and 100 screws
• Available in hand drive or pneumatic fasteners

Contractor Pack: Covers 250 Square Feet of Decking
• Includes 450 clips and 500 pneumatic nail screws
• Starter and finisher clips are sold separately

Starter Clip Pack: 25 Starter Clips with 25 Screws
• Starter clips are used to fasten the first deck board to the ledger board
• Estimated need for 250 square foot deck

Finisher Clip Pack: 25 Finish Clips with 25 Screws
• Finish clips fasten the last deck boards
• Estimated need for 250 square foot deck

Deck Clip Pack: 450 Deck Clips with 500 Hand Drive Screws
• Deck clips fasten the last deck boards to rim joists
• Estimated need for 250 square foot deck

Transition Clip Pack: 25 Transition Clips with 25 Screws
• Transition clips are used for picture frame decking and repair

For Installation: Pneumatic Gun: SENCO SHD150XP Hidden Deck Installation Tool

Rail Strips
Add a subtle glow to set apart your outdoor living space. Strips can be cut every 2” for custom rail widths.

Post Lights
Low profile and flat top to complement the design of your deck. Real glass coverings help ensure your lights will continue shining clearly for years.
