

**Exceptional. Bold. Distinguished.**

Designed to be water-resistant like MoistureShield's composite decking, our premium Navigator line of Solid Core™ Railing offers a TruTexture™ Surface for the look and feel of real wood. With a strong material composition at its core that fights damage from rot, insects and other harmful elements and an acrylic cap, the Navigator boasts three distinctive top rail options along with chamfered posts and balusters.

A seamless rail combined with a unique hidden bracket system that conceals fasteners provides a craftsman-like install and modern, clean aesthetic. Available in one color with three infill options — square vinyl balusters, black round aluminum balusters or stainless-steel cable.

**SOLID CORE**  
RAILING  
**Will Not Rot,  
Splinter, Warp  
or Stain**

**TruTexture™**
